FINANCE & INVESTMENT EXPERIENCE

Oracle Equity Research Report | Independent Project

Report: [https://haoyangzou.com/]

- Analyzed Oracle's business model, financial performance, competitive positioning, and growth drivers across cloud and AI infrastructure.
- Built a financial model and valued the company using discounted cash flow and comparable-company analysis.
- Developed bull, base, and bear scenarios, performed sensitivity analysis, and presented the investment thesis, key risks, and target-price assessment.

KUTIC | Selected Member 2026 - Present

- Selected to join KUTIC, a student-led trading and investment club, focused on equity research, markets, and investment analysis.
- Develop fundamental research and investment-analysis skills through team-based research and discussions.

ORGANIZATIONS & ACTIVITIES

TechLink | Finance & Marketing Lead 2026 - Present

- Co-founded an early-stage career platform connecting university students with internships, career events, and employers.
- Lead budgeting, business-model planning, branding, and outreach while coordinating with a cross-functional student team.

Science Tokyo International Student Association | Communication Division Leader 2025 – Present

- Lead communications and outreach for international student initiatives, coordinating multilingual content and event promotion across diverse student teams.
- Collaborate with Japanese and international students to support cross-cultural engagement across the university community.

LEADERSHIP & GLOBAL PROGRAMS

Georgia Tech Leadership Program | Selected Participant & Team Leader Atlanta, GA, USA | Mar 2026

- Led an international student team in a leadership-focused program combining fieldwork, reflection, and experiential learning across Atlanta.
- Studied leadership through visits to MLK and civil-rights sites, Georgia Tech labs, and hands-on classes, while coordinating team discussions and presentations.

Stanford d.school Design Thinking Workshop | Published Contributor Tokyo, Japan | Dec 2025

- Applied design-thinking methods and authored a reflection article published by the university.
